**Middle Power Dreaming**  
**Australia in World Affairs 2006-2010**  
Edited by James Cotton and John Ravenhill  
Melbourne: Oxford University Press, 2011. Paperback, 360pp.

This latest book in the accomplished series *Australia in World Affairs* charts Australia's foreign policy recalibration after the Howard government's bilateral approach via the "Rudd experiment" to the young Gillard administration – an era characterized by disillusionment toward the War on Terror, the Global Financial Crisis and the dawn of the Asian century. Written by leading scholars, this volume provides the definitive record of Australian foreign policy between 2006 and 2010.
