

# NEW TECHNOLOGIES AND THE FUTURE BATTLEFIELD

Soldier enhancement is no longer the realm of science fiction. How will physical and cognitive enhancement technologies, DNA-hacking, gene therapies, and human-machine interfaces change the face of war?

Featuring a panel of legal, ethical and military experts:

**Dr Rain Liivoja** Project Director, Asia Pacific Centre for Military Law

**Group Captain Ian Henderson** Royal Australian Air Force; Deputy Director, Asia Pacific Centre for Military Law

**Dr Ned Dobos** Lecturer, UNSW Canberra

**Moderated by Dr Helen Durham** incoming Director of International Law and Policy, ICRC

**Tuesday 27 May 2014**

**5.30pm** refreshments, for **6.00pm** panel discussion  
Lecture Theatre G08, Melbourne Law School, 185 Pelham Street, Carlton

**Registration is required for this free event. To book visit <https://futurebattlefield.eventbrite.com>  
This event will be streamed online. Visit [icrc.org/au](http://icrc.org/au) for details**
